

To whom it may concern.

SEA-CARGO AGENCIES ESBJERG APS!

Sea-Cargo is proud to announce the opening of **"Sea-Cargo Agencies" in Esbjerg.**

Sea-Cargo started earlier this year a new liner service between west coast Norway and Esbjerg - operated two weekly by use of a dedicated RORO vessel. The service has been a great success with good support from a wide range of customers – and increased capacity and frequency is being evaluated for a further enhancement in early 2008.

A controlled infrastructure is a key issue for Sea-Cargo, and the Port Agency Operations is one that has been a key to our success in all hub ports and routes. We are therefore proud to confirm that we as from December 2007 will have our own Port Agency Operations in Esbjerg – by our fully owned subsidiary

Sea-Cargo Agencies Esbjerg Aps.

The office is already manned en operational, in the first phase by two experienced operators from head office in Bergen. They will ensure that standard Sea-Cargo routines and operational procedures are implemented before recruiting local staff for future manning. We trust the value add provided by a local Sea-Cargo representative and operations office is appreciate by our customers – and that the transparency to other Sea-Cargo ports will be evident.

The Sea-Cargo Agencies Esbjerg office will as from December 2007 be manned by:

Agency Manger: Anders Røssevold (7 years with Sea-Cargo head office)
Agency operator: Jari Kahrs (1 year with Sea-Cargo head office)

Please find further information about local setup in attached info note.

Finally,

We very much appreciate the service, cooperation and flexibility extended by Team Freight during these first few months of operations. Team Freight has done a very good job – at the same time being fully aware that this was only a temporary engagement. They have really contributed to create a sustainable future for the Sea-Cargo Esbjerg Service, and they have been an excellent ambassador for Sea-Cargo.

A special thanks to manager Glenn Petersen and his operators Jan Raben Nielsen and Peter Christensen for their service and cooperation during these initial months of service.

For further details or enquiries –
please contact our Agency Manager Anders Røssevold, or Managing Director Ole Sævild of Sea-Cargo AS.
